7. Accomplishments/Honours Received

Please list and briefly explain all of your accomplishments and honours that would be pertinent to the work of the Board of Dictators.

8. Essays

Choose any four of the five topics. Please respond in the space provided or attach additional pages for each essay with the chosen topic clearly designated. Responses should be in essay format and should be between 500-1000 words.

Topic A: Explain what is wrong with the status quo, and provide concrete suggestions to improve it.

Topic B: Democracy has been touted by many as a panacea that will solve all of society's problems. In order for democracy to function as advertised, however, the citizens have to accept the burden of ruling themselves and put forth a great deal of effort to keep things running smoothly. Left unchecked democracies often discriminate against minorities, disintegrate into chaos, or allow special interests to manipulate public opinion and get what they want. The GNU Public Dictatorship's open model of government provides an elegant alternative to this chaos. Please explain the advantages of the GPD.

Topic C: Explain how your unique talents and abilities will benefit the work of the GNU Public Dictatorship's Board of Dictators. Provide statistics, diagrams, or simulations that will quantify your contributions to the New Future.

Topic D: While we have known about the dangers of evil office products for quite some time, many world citizens still use them “professionally.” Many justify it by saying that their employers expect them to do so or that it isn’t affecting them, but recent studies show that more than half of “professional” evil-office-product users are addicted to them. “Natasha’s” recent bout with evil sticker addiction should serve as a warning to us all of how easy it is to become an addict. Please explain what motivates you to actively fight against even casual “professional” use of evil office products and how you would use your appointment to the Board of Dictators to keep everyone safe from these pernicious products.

Topic E: If you were given a time machine that would work but once (no return trip) but could take you to any point in space and time past, present, or future, where would you go? How would your choice benefit the New Future?
